Summary

Dedicated and enthusiastic graduate with a strong foundation in modern programming languages and a passion for creating dynamic, user-friendly websites. Proficient in HTML, CSS, JavaScript, PHP, and MySQL. Constantly motivated to learn something new that will improve my software development skills and become a better version of myself.

Experience

DOST, Mobile Frontend Developer

June 2022 – May 2023

- Utilized frameworks (Ionic - Angular) to build interactive and dynamic features, enhancing the application's functionality and usability.
- Conducted thorough cross-browser testing and resolved compatibility issues, ensuring a seamless experience for all users.
- Integrated RESTful APIs to fetch and display real-time data, enhancing the application's dynamic content.
- Implemented version control (Git, Gitlab) and actively participated in code reviews to maintain code quality and collaboration within the development team.
- Gained valuable experience in application development best practices, version control, and the agile development process.

Skills

- React, Ionic, Angular PHP, C++, Java, MySQL, Tailwind CSS, Bootstrap, HTML, CSS, JS, Typescript, Sass, Git, GitHub, GitLab
- Collaborative and able to work in teams.
- Strong communication and interpersonal skills.
- Analytical and problem-solving abilities.
- Willingness to learn something new.

Education

Technological Institute of the Philippines, 2019 - 2023

Bachelor of Science in Information Technology, *cum laude*
